RE: SUN RESOURCES NL BIDS ON THAILAND ACREAGE

Sun Resources NL ("Sun") advises that it has participated in the 20th Bid Round in Thailand by participating in a bid submission on the following bid blocks.

Block	Location	Participants	Number of Bids on Block
G3/50	Offshore Gulf of Thailand	Sun* 50% Adelphi Energy Limited 50%	8 including Sun & Adelphi Energy Limited
L20/50	Onshore Thailand	Carnarvon Petroleum Ltd* 50% Sun 50%	Sole Bidder

* Block Operator for Bid Participants

Sun considers both of these blocks offer an excellent opportunity for encountering commercial hydrocarbon accumulations within the good fiscal regime of Thailand.

The G3/50 block is located within the Chumphon Basin in the western portion of the Gulf of Thailand. The block was assessed to have significant reserve potential for both oil and gas, with a gas/condensate discovery having already been made within the block. The highly prospective nature of the block was confirmed as it attracted a significant number of bids, 8 in total.

The L20/50 is targeting oil and located in the southernmost portion of the Phitsanulok Basin, the most prolific onshore basin in Thailand and which contains the Sirikit Field. Sirikit is the largest onshore oil & gas accumulation in Thailand (reserves in excess of 200mmbbls) and is located approx. 40 kms to the NW of L20/50. Carnarvon Petroleum Ltd (Carnarvon), as Operator for the Participants will utilize their onshore Thailand experience, from the Wichin Buri Field, to explore in this block. Carnarvon and Sun are the sole bidders on the L20/50 block.

An announcement on the winners for each of the above blocks are not expected until approximately October 2007.

Yours sincerely
SUN RESOURCES NL

William Ashby
Managing Director
